PROGRAMME
INTENSIVE COURSE ENDOSCOPIC ENDONASAL APPROACHES

Course Director
Miguel Soares Tepedino
Adjunct Professor, UERJ
Rio de Janeiro, Brazil

Course Director
Leonardo Balsalobre Filho
MD, PhD, Unifesp
São Paulo, Brazil

Scientific Director
Aldo Stamm
COF Director
São Paulo, Brazil

Course Coordinator
João Teles Junior
Ex President, Latin American Society
Of Rhinology and Facial Plastic Surgery
Rio de Janeiro, Brazil

International Faculty
Ramón Moreno-Luna
Spain

International Faculty
Juan Curi
Argentina

Goals

- Identify and understand the anatomic aspects of the paranasal sinuses and those relations with the skull base and the orbit.
- Be connect to new technologies in ESS.
- Perform basic and advanced procedures in endoscopic sinus surgery (ESS).
- Evaluate surgical treatment indications and strategy approach.

Educational Methods

- Theoretical lectures;
- Training sessions with participants;
- Practical training on cadavers specially prepared for dissection.

Faculty Trainers

1st Day

Theoretical Sessions

08:45 – Check-in at CETEB Reception desk

09:00 – 09:10 – Welcome

09:10 – 10:00 – Anatomy of the Paranasal Sinuses and Skull Base

10:00 – 10:40 – Radiologic Anatomy

10:40 – 11:20 – Septal Perforation Repair Algorithms

11:20 – 11:50 – Coffee Break

11:50 – 12:20 – Turbinoplasty

12:20 – 13:00 – Complete Surgery for CRSwNP: the role of the surgery and the biologic

13:00 – 13:05 – Laboratory Rules

13:05 – 13:45 – Prosection by the Professors

13:45 – 14:30 – Lunch

Practical Sessions (14:30 – 18:00)

Anatomical Dissection

• Turbinate Surgery

• Sphenopalatine artery ligation

• Maxillary Sinus Surgery

• Frontal Sinus Surgery (Draf 2A)

• Sphenoethmoidectomy

Demonstration followed by participant dissection

16:00 – 16:30 – Open Coffee Break

18:00 – End of day and Happy Hour

2nd Day

Theoretical Sessions

08:45 – Check-in

09:00 – 09:45 – Frontal Sinus Surgery: From Least to Most Extensive

09:45 – 10:15 – Atopic Disease of the Central Compartment. An Emerging Phenotype

10:15 – 11:00 – GSK symposium

11:00 – 11:30 – Coffee Break

11:30 – 12:00 – The Agger-Nasi DCR

12:00 – 12:30 – Revision Sinus Surgery

12:30 – 13:00 – Pterygopalatine/Infratemporal Fossa

13:00 – 13:45 – Prosection by the Professors

13:45 – 14:30 – Lunch

Practical Sessions (14:30 – 18:00)

Anatomical Dissection

• DCR

• Advanced Frontal Surgery (Draf 3)

• Nasoseptal Flap

• Approach to the Sella (Trans-sphenoidal)

Demonstration followed by participant dissection

16:00 – 16:30 – Open Coffee Break

18:00 – End of second day

3rd Day

Theoretical Sessions

08:45 – Check-in

09:00 – 09:40 – Reboot Surgery plus Endonasal Mucoplasty. Surgical Timing

09:40 – 10:20 – Management of Sinonasal Tumors

101:20 – 10:40 – Coffee Break

10:40 – 11:20 – CSF Leak

11:20 – 12:05 – J&J Symposium

12:05 – 12:35 – Malignancies

12:35 – 13:00 – Prosection by the Professors

13:00 – 13:35 – Lunch

Practical Sessions (13:35 – 18:00)

Anatomical Dissection

• Middle Maxillectomy / Pterygopalatine Fossa

• Pituitary and Cavernous Sinus

• Orbital Decompression, Superior Orbital Fissure, Cavernous Sinus

Demonstration followed by participant dissection

16:00 – 16:30 – Open Coffee Break

18:00 – End of course and Certificate Delivery
